

Daily Task Report — June 17, 2026

Project: StudentKhabri CRM

Developer: Pratik Choudhuri

Tasks Completed

1. Frontend UI Optimization

- Refined the frontend user interface to enhance visual appeal and overall user experience.
- Implemented mobile compatibility and responsive design improvements across the CRM application.

2. Lead Management Features

- Added the capability to **delete** leads directly from the lead management interface.
- Added the capability to **archive** leads, allowing for better organization and decluttering of the active lead view.

3. System Architecture & Deployment

- Reviewed, finalized, and approved the CRM v3.0 implementation plan.
- Prepared the new UI and lead management changes for deployment.

Next Steps

- Continue addressing any edge cases with mobile UI responsiveness.
- Monitor the new lead deletion and archival functionalities for stability.
